PROFESSIONAL SUMMARY

Flutter Developer with 3+ years of experience building, enhancing, and maintaining cross-platform mobile applications for Android and iOS. Hands-on experience delivering enterprise mobile features, integrating ERPNext/Frappe REST APIs, and supporting production applications. Worked on CubeZixOne, an employee application serving 50+ users across 10+ business modules with 20+ REST API integrations. Skilled in Flutter, Dart, Provider, Riverpod, MVVM, Clean Architecture, Firebase, Dio, API integration, document workflows, and Android/iOS build and release troubleshooting.

TECHNICAL SKILLS

Programming and Mobile Development: Dart, Flutter, Android, iOS, responsive UI, cross-platform development

Architecture and State Management: MVVM, Clean Architecture, Provider, Riverpod, Repository Pattern, modular architecture

API and Backend Integration: REST APIs, Dio, HTTP, JSON, ERPNext, Frappe, Node.js, API authentication, Postman

Firebase and Third-Party Services: Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging (FCM), Crashlytics, Firebase Analytics, Google Sign-In, Google Maps, Cloudinary

Local Storage and Device Features: SharedPreferences, Flutter Secure Storage, file upload/download, PDF viewing, local notifications, background tasks

Tools and Release Management: Git, GitHub, Android Studio, Xcode, FlutterFire CLI, Google Play Console, App Store Connect, TestFlight, Docker

Additional Technologies: JavaScript, TypeScript, React, Next.js, React Native, HTML, CSS, WordPress

PROFESSIONAL EXPERIENCE

CubeZix Technologies | Mumbai, India

Flutter Developer / Mobile Application Developer | January 2025 – Present

- Independently develop and maintain 3 production Flutter applications for Android and iOS, owning feature implementation, API integration, debugging, production support, and release activities.
- Develop and maintain CubeZixOne, an employee application used by 50+ users, with 10+ business modules and 20+ REST API integrations.
- Build and enhance enterprise workflows for employee services, leave applications, expense claims, procurement requisitions, purchase orders, payment entries, salary certificates, document approvals, and notifications.
- Implement role-based approval workflows, approver-specific actions, workflow transitions, rejection reasons, and conditional edit and signature actions.
- Develop document management and signing features, including attachment downloads, PDF and image rendering, saved signature management, and interactive signature placement.
- Integrate ERPNext/Frappe REST APIs and Firebase services, including Authentication, Firestore, Firebase Cloud Messaging, and Crashlytics.
- Implement notification features such as unread-count indicators, notification synchronization, local notifications, and background or polling-related functionality.
- Apply MVVM, Provider, Riverpod, Clean Architecture, Repository Pattern, and reusable components to structure and maintain application features.
- Validate APIs using Postman, investigate production crashes using Crashlytics, and troubleshoot Flutter, Gradle, Android, Xcode, iOS signing, dependency, and deployment issues.
- Contribute to TSI, CubeZix Common ERP, and Knowledge Fund CRM mobile application development.

Cubosquare Technology | Mumbai, India

Flutter & Mobile Developer | December 2023 – December 2024

- Developed cross-platform mobile applications using Flutter and Dart for Android and iOS.
- Integrated REST APIs and JSON-based backend services to support application features and data workflows.
- Implemented Firebase Authentication, Firebase Cloud Messaging, Google Sign-In, Cloudinary, and file upload and retrieval functionality.
- Built reusable Flutter components and performed debugging, API testing, and functional testing.
- Contributed to projects involving Flutter, React, Next.js, and React Native.

Cubosquare Technology | Mumbai, India

Flutter / Web Development Intern | May 2023 – November 2023

- Worked on WordPress-based web development and application-related tasks.
- Configured Firebase Cloud Messaging and contributed to React and Next.js development for the Aqar First project.

- Assisted with React Native application development and Android publishing activities.

SELECTED PROJECTS

CubeZixOne – Employee and Enterprise Application (Office)

Flutter, Dart, ERPNext/Frappe, REST APIs, Firebase, Provider, Riverpod

- Production employee application with 50+ users, 10+ business modules, and 20+ API integrations. Delivered employee services, leave, expenses, procurement, purchase orders, payment entries, salary, document approvals, and notifications.

Document Approval and Digital Signature Workflow (Office)

Flutter, Dio, ERPNext/Frappe Workflow API, PDFx

- Implemented workflow actions and state handling, document attachment downloads, PDF and image viewing, locally saved signatures, and interactive signature placement.

TSI, CubeZix Common ERP, and Knowledge Fund CRM (Office)

Flutter, REST APIs, ERPNext/Frappe, Firebase

- Contributed to enterprise and CRM mobile applications through business workflow implementation, API integration, reusable UI components, authentication, and debugging.

Independent Application Projects

Flutter, Dart, Firebase, REST APIs

- Worked on application concepts and feature development for Plan My Day, SpineSavior, Crypto Tracker, and VoiceSync (text-to-speech and speech-to-text).

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)

University of Mumbai – Rizvi Education Society's College of Art, Mumbai

Semester VI examinations cleared; degree certificate pending university name correction.

Higher Secondary Certificate (HSC): 65.5% | Secondary School Certificate (SSC): 73.6%
